A RECEIVER IS NAMED

For the Terminal Railway by the United States Court.

PRESIDENT BREWSTER IS THE MAN

Chosen by the Principal Bond Holder. His Bond Fixed at \$25,000—Default Made in Payment of the Interest on \$2,000,000 of First Mortgage Indebtedness—The Property Not More than Paying Expenses If It Is Doing That, and No Prospect of Immediate Profit.

Yesterday in the United States court, Judge Jackson on the bench, action was taken which, while it was not a surprise to those well informed as to the affairs of the Wheeling Bridge and Terminal Railway Company, will be learned with both surprise and regret by the general public. This was the appointment of a receiver to take charge of the property in the interest of the bondholders. The president of the company, Mr. C. O. Brewster, who has been acting as its general superintendent and manager for some time, was named by the petitioner as the most suitable person to be given charge of the affairs of the company, and the judge appointed him, fixing the bond at \$25,000, which must be given within ten days.

The proceeding was brought by the Washington Trust Company, of New York, by its attorneys, Russell, Postle & Percy, of New York, Mr. Percy, of the firm, appearing in court, while W. P. Hubbard, of this city, represented the defendant, the Terminal Company, with which other creditors are joint defendants.

The petition in chancery is sworn to by David M. Morrison, president of the trust company. He recites that the Terminal Company issued 2,000 first mortgage bonds of the par value of \$1,000 each, or \$2,000,000 in all, of which the complainant represents 1,675 bonds, \$1,675,000 of the total debt.

Interest on these bonds is payable every six months, but the defendant company has failed to pay this. The first failure occurred on June 1, 1892, and the interest due on the same December 1, 1892, and June 1, 1893, has not been paid.

For some time past, the petitioner further alleges, the operations of the company's property have not brought in much more than enough money to pay the expenses of such operations, if, indeed, the income has been sufficient to pay such expenses, and there is no immediate prospect of the company's earning more than enough to operate the road, so that it is not likely that the interest past due nor the installments to become due can be paid at a reasonably early date.

The receiver is empowered to take charge of and operate the property of the Terminal company, to employ the necessary assistance in doing this, including a legal advisor, and to do everything necessary to protect the investment. He is also instructed to pay out of any moneys coming into his hands as such receiver, as soon as possible, all sums due for labor on the road of the company or for its operating expenses within the ninety days last past.

President Brewster is in the city, and it is understood that he will file his bond and enter upon the discharge of his duties as receiver at once.

As already remarked, the application for the appointment of a receiver was not a great surprise to people at all familiar with the affairs of the Terminal. It has been reported for some time that the company was not more than making expenses, and many have doubted if it was doing that. The fact is that from the start not a few thoughtful people have predicted that the investment would not prove profitable. The road, with its bridges, tunnels and other costly track, is very expensive to maintain and operate, and so far the traffic over it has not been in proportion to the revenue needed to maintain and operate it.

What the ultimate fate of the property will be is still only a matter of conjecture. For the present it will be operated just as it has been in the past. It is a matter of general prediction that it must finally be sold to some other railroad company, which, securing it at a cheaper valuation, can operate it at a profit, but it is probable that the Terminal system will never be greatly profitable until a connection is built with the east and the bridges and terminal system become a part of a through trunk line.

YOUNG NOT GUILTY.

A Famous Case of Felonious Assault Tried Yesterday.

Yesterday in the criminal court the case of William, alias J. F. Young, was put on trial to a jury composed of Louis Baker, Charles F. Heyman, William Bayha, James Archibald, Wilbur C. Jacobs, H. W. Fair, J. F. Merriman, James Newhart, P. L. Kimberly, Silas J. Beall, J. H. Dougherty and Charles E. Gee. Young was a motorman on the Wheeling railway, and lived on the South Side. A young girl, Bessie Wagner, aged twelve years or so, lived with him, and it was charged that while his wife was absent from home, calling on a neighbor, Young feloniously assaulted the child.

The state was represented by Prosecuting Attorney Howard, while Messrs. Atkinson and Arnett appeared for the defense. There was the usual large audience attracted by such cases.

The defense moved to postpone the trial, because of the absence of a material witness, Lydia A. Semple. After examining Young at some length to ascertain the importance of what he expected to prove by her, the court refused to postpone the case.

The girl told her story, which occupied the remainder of the forenoon and part of the afternoon. Young himself was then put on the stand, and denied the charges. He was subjected to a rigid cross examination.

The argument was finished about 5:30 p. m., when the jury retired. About 6 o'clock it was excused till 8, when court reassembled.

After being out again until late last night, the jury brought in a verdict of not guilty, and Young was discharged.

In the United States Court.

In the United States court yesterday U. S. Dutton and Edward H. Dutton pleaded guilty to opening mail intended for another and were fined \$25 and costs each, and Edward H. Dutton, on a charge of intimidating a witness, was fined an additional \$25 and costs. Josephine Boyd was acquitted of the charge of selling beer without license. John Whitehair, of Monongah, Marion county, was also acquitted of illegal liquor selling. The counterfeiting cases of Bowers and Meredith are set for trial this morning.

Timmons' Body Sent to Indiana.

The body of John Timmons, who was killed on the Baltimore & Ohio bridge at the foot of Sixteenth street night before last, was last night shipped to Remington, Ind., to his brother, who telegraphed the money here to Chief of Police McNichol to cover expenses. The body was prepared for shipment by Undertaker Altmeyer. Nothing new was developed at the inquiry by County Coroner Schultze last evening, the evidence showing that the accident happened just as narrated in yesterday's INTELLIGENCER.

IT COVERS A GOOD DEAL OF GROUND.

—Dr. Pierce's Golden Medical Discovery. And when you hear that it cures so many diseases, perhaps you think "It's too good to be true."

But it's only reasonable. As a blood-cleanser, flesh-builder, and strength-restorer, nothing like the "Discovery" is known to medical science. Diseases that it cures come from a torpid liver or from impure blood. For everything of this nature, it is the only guaranteed remedy. In Dyspepsia, Biliousness; all Bronchial, Throat and Lung affections; every form of Scrofula, even Consumption (or Lung-scrofula) in its earlier stages, and in the most stubborn Skin and Scalp Diseases—if it ever fails to benefit or cure, you have your money back.

The worse your Catarrh, the more you need Dr. Sage's Catarrh Remedy. Its proprietors offer \$500 cash for a case of Catarrh in the Head which they cannot cure.
